### ENIGMA

There is a quotation containing 25 letters. The letters are by their numerical position in the quotation, new words have been formed with them.  
For instance: A writer of Indian stories—19, 3, 21, 8, 15, 20, 22, 23, 24, 25. The first letter in the quotation, the first "o," the third, and the second "o," the twenty-first, the "p," the eighth, the "e," the fifteenth, and the "t," the twenty-third, will be the answer to the mystery of the hidden quotation? Here are the key words:  
A writer of Indian stories—19, 3, 21, 8, 15, 20, 22, 23, 24, 25.  
A month—7, 18, 11.  
A small shelter—4, 13, 16, 23.  
An English Hymn writer—2, 9, 12, 1, 17.  
An English coin—5, 14, 6, 2, 10.

Answer to Last One: It never rains but it pours. Key Words: Paris, Burns, V. Erie, tint, out.

### THE WEATHER

Fair tonight and tomorrow. Local Readings: Creed Bolhard Observer. Temperature at 8 a. m. today 67; at 2 p. m. 78; at 8 p. m. 68; clear; temperature, maximum 80; minimum 63; precipitation trace.

Speeding Charges Dismissed.—Don Reese was before Mayor W. W. Conway in police court this morning on a charge of speeding on the streets of the city. The rate of thirty-five miles per hour. He denied the charges and was able to produce a witness who testified that he was not speeding. After hearing the evidence in the case the charges against Reese were dismissed.

Assault Case Continued.—Pearl Swiger will be tried before Justice L. Blocher Friday afternoon on a charge of assault upon a Mrs. Roland of Hill Crest. The hearing was scheduled to come before Justice Blocher yesterday afternoon but was continued until Friday to permit witnesses to testify.

At Cook Hospital.—Miss Nelle Dougan of Locust avenue underwent an operation for appendicitis this morning at Cook Hospital and is recovering nicely. This time Miss Nellie Boggess, daughter of T. B. Boggess, will undergo an operation for the removal of her tonsils at the hospital this afternoon. Miss Allen Poling, daughter of Charles Poling, had her tonsils removed today.

Return From Grafton.—Mrs. J. R. Phelps and daughter have returned from Grafton after visiting Mrs. Phelps' mother, who is ill.

At Fairmont Hospital.—Mrs. Mollie Curren, a waitress at the Ideal Restaurant, had her forehead badly cut in an automobile accident yesterday.

## LATE WANT ADS.

TWO 9-1-2 foot awnings, used 2 months only. Call 386-R. 5094A  
TWO FRONT ROOMS FOR LIGHT HOUSEKEEPING on street car line. Prices reasonable. Phone 1214. 5097A

yesterday and was admitted to Fairmont Hospital for treatment. Frank Deville, an employee of the Fairmont Wall Plaster Co., of 808 Gaston avenue, has his leg fractured while at work yesterday and was also admitted to the hospital for treatment.

Back From Charleston.—Mr. and Mrs. H. C. Pitzer and two children returned from Charleston where they visited relatives.  
From Summerland Beach.—Dr. and Mrs. J. B. Clinton and little daughter, Barbara Jean and Christine, are returning today after a month's stay at Cottage Kitty Kat Summerland Beach, Ohio. They will be accompanied home by Miss Miriam Jackson of Columbus, Ohio, a former college room-mate of Mrs. Clinton. Miss Jackson will spend a week in Fairmont as the Clintons' guest.

## ZANE GREY MOST POPULAR IN CITY

(Continued from page one)

"Helen of the Old House," by H. B. Wright.  
"Brass," by C. G. Norris.  
"Brass" is the only book that is in national demand that wasn't one of the best sellers in Fairmont this year. It is true that "Brass" was sold here and many copies were placed on the market, but it did not rival any of the other books mentioned.  
Some of the books seem to sell better in some stores than others. This is true locally as well as nationally. By interviewing the different sellers, it was found that "Her Father's Daughter" was one of the best sellers at Hartley's, while it didn't sell as good at the other stores. Then too, "Moon Call" had a greater number of sales at A. J. Martin's than elsewhere. It is possible that the Holt-Rowe Novelty Co. sold more copies of "To the Last Man," than did the other stores.

Fairmont is wide awake when it comes to reading. Business men, laborers, mechanics, students, flappers, plumbers, brick layers, children and even school teachers are taking a great interest in the new fiction and it is being read by all. The interesting part of it is that the same books that have become popular in one community have made a national appeal.

This shows that the present day authors are capable of writing for every class of people and they can choose characters that are equally interesting to rich and poor alike.

## PRODUCERS WILL NOT ACCEP BID OF MINERS UNION

(Continued from page one)

we get the details of the plan," an officer of the association said.

State To Operate Mines  
LANSING, Mich., Aug. 1.—Governor Grossebeck today took preliminary steps toward securing an international coal supply for Michigan. He instructed his secretary to prepare a recommendation to the state administrative board adopted a resolution authorizing a committee to attempt to secure options on the coal in the fourteen mines in the Saginaw district, take over the mines and operate them under state control.

Indiana Not to Participate  
INDIANAPOLIS, Aug. 1.—Indiana operators will not attend the conference called at Cleveland by President John L. Lewis of the miners' union for the purpose of negotiating a wage agreement for the Central Competitive Field, declared Morton L. Gould, president of the Indiana Bituminous Coal Operators' Association today.

Illinois To Decide Friday  
Chicago, Aug. 1.—(By the Associated Press.)—Illinois coal operators will pass on John L. Lewis' invitation for a Central Competitive Field conference when the state operators' scale committee meets here Friday, Dr. F. C. Honnold, secretary of the Illinois Coal Operators' Association, said today. Doctor Honnold said that his personal opinion was that that sentiment in Illinois would be in line with that expressed in Indiana.

## QUARTERLY CONFERENCE HELD BY U. B. CHURCH

The third quarterly conference of the United Brethren Church was held Monday evening at the church on the East Side. The Rev. J. F. Pritchard of Weston, district superintendent, conducted the devotional services and had charge of the meeting.  
Reports of the various church officials were read and approved and showed the financial condition of the church to be excellent. Reports showed also that the work done by the church in the Sunday school for the last quarter was creditable. One of the interesting things brought out was that the attendance at the mid-week prayer service had more than doubled since the last report, and that this attendance was largely composed of men, which is unusual.

This is the last quarterly conference before the general conference to be held in Huntington in September and the reports included the work of the year as well as for the last quarter.  
The official board will present several plans to the conference for the further improvement of the church in Fairmont.  
The reports of the Sunday school and Christian Endeavor officials indicated that the average attendance of the Sunday school for the last quarter was 111 and the attendance of the Christian Endeavor twenty.

MARRIAGE LICENSES  
The following marriage licenses have been issued at the office of County Clerk Lee N. Satterfield:  
J. Henry Hess, 24, and Josie L. Sturm, 25, both of Worthington.

## NEW BUICK CARS OUT IN 14 MODELS

Complete Line Now Being Handled by Beatty Motor Car Concern.

Detailed information of the complete new line of fourteen Buick models for 1934 has just been received here by Carl E. Beatty, the head of the new Beatty Motor Co., who recently severed his connections with the Standard Garage here. The new models include two new touring sedans of both the four and six-cylinder type, incorporating many body and mechanical changes. The new models incorporate all the old features of Buick dependability with the valve-in-head motor but at the same time are so designed as to give added comfort in riding and greatly improve their appearance.  
One of the greatest features of the new series of cars is the spring suspension which gives them extremely easy riding facilities over all roads. The rear spring hanger positions have been changed and practically have been made with all rebound and side sway, making the use of rear snubbers unnecessary. As an extra precaution against spring trouble the main leaf in the front springs has been made of vanadium steel.

In the six-cylinder models the Buick will continue to put out the five and seven passenger touring cars and a two-passenger roadster. In the six-cylinder line is also included the three passenger sport roadster, the four-passenger coupe and a seven passenger sedan all in addition to the new five passenger touring sedan and the improved five passenger sedan.

In the four-cylinder type there are five models which include the two passenger roadster, a five passenger touring car, a three passenger touring car, a three passenger coupe, the five passenger sedan and the new five passenger touring sedan.

In all of the new six-cylinder closed models the Buick engineers have built appearance, comfort and smooth running into the car and every effort has been made to do away with noises so common to older types. The new low body suspension has been achieved, together with a roof so constructed it presents a straight line view to the eye and has a new covering which is designed to eliminate joints and body noises. One of the distinct features of the new Buick is the window construction. The engineers have designed a new round corner rear and side windows and equipped them with anti-rattle catches which practically stop noise and at the same time give a light and airy feeling.

The doors are of an improved type and are equipped with a new type lock and rotary handles of nickel and black, easily operated, and special attention has been paid to the hinges, which are designed so that they insure even, easy operation at all times.  
On all the closed models a clock has been installed and a metal covered sun shade is part of the equipment. The new cars are equipped with gular, equipped with a cowl ventilator operated from the dash.

Special attention has been paid to the interior of the cars and the seats are slung at a lower level, giving added comfort, and the exterior body is finished with a high grade trimming material and includes new interior fittings.  
On the six-cylinder touring sedan standard equipment includes a rigid trunk rack and the rear of the car is finished with a high grade, insuring extreme comfort to all passengers.

In the building of the new bodies the hood line has been raised, giving the car a longer appearance and new design, one piece, crowned fenders, have been used throughout, together with drum headlights and an improved type of drum parking light on the cowl. An unusual effect is attained by the use of switches under an extremely neat glass facing. An improved transmission lock has also been made part of the regular equipment which will reduce theft insurance rates 20 per cent. Changes in the car have also altered Buick's standing in fire insurance and it has risen from class D to A, the highest rating ever given an automobile and has been approved by the National Underwriters' Association. The wing nuts controlling the windshield have also been placed so that adjustments may be made from inside the car and a new method of anchoring

innum binding has been used throughout.  
A cowl ventilator, operated from the instrument board, insures comfort in summer touring and does away with all engine heat in the front compartment.  
In order to give the driver the utmost comfort Buick engineers have increased the length of the gear shifting lever and have installed a special windshield wiper of an improved design, and a set of switches under an extremely neat glass facing. An improved transmission lock has also been made part of the regular equipment which will reduce theft insurance rates 20 per cent. Changes in the car have also altered Buick's standing in fire insurance and it has risen from class D to A, the highest rating ever given an automobile and has been approved by the National Underwriters' Association. The wing nuts controlling the windshield have also been placed so that adjustments may be made from inside the car and a new method of anchoring

the windshield to the cowl through a heavy rubber washer has been adopted.

REAL ESTATE TRANSFERS.  
The following real estate transfers have been recorded at the office of County Clerk Lee N. Satterfield:  
Ersel Fleming and Paul V. Fleming to J. Ridgely Sheridan, a parcel of land in the Oakwood addition of Fairmont. Consideration \$1, etc.  
James A. Meredith and wife to Frank R. Amos, a parcel of land in the Monongahela Industrial Co.'s East Side addition of Fairmont. Consideration \$2,000.

Norman Cordway and wife to Edward H. Thomas, the nine-tenths interest in a parcel of Sewickley vein of coal underlying a parcel of land in Paw Paw District. Consideration \$766.16.  
Leigh C. Husted and Lillian M. Husted to Stedel Idell Campbell, a parcel of land in the Edgeway addition of Fairmont. Consideration \$1,000.

On Thanksgiving Day four years ago, she asked the Y. M. C. A. to send four boys from the Charleston Navy Yard to her home at Rosedale for dinner. One of the four was unable to come, so the secretary sent a substitute—Edmund Pitlock, then 18.  
Pitlock became friendly with the Hubbards. They visited him over often. After his discharge he went to his home in Chicago.  
"Both Mr. and Mrs. Hubbard," says Willard Price Lombard, the

## 'I'm Happy,' Says Woman as She Faces Murder Trial

MRS. CARRIE N. HUBBARD AND (BELOW) EDMUND PITLOCK, INNOCENT CAUSE OF HER TRAGEDY.

By ALEXANDER HERMAN.  
BOSTON, Aug. 1.—Although she may be the first woman to go to the electric chair in Massachusetts, Mrs. Carrie N. Hubbard is calm and free from worry.

She is awaiting trial on a charge of murder in the first degree for having slain her husband, William B. Hubbard, wealthy chemical manufacturer.  
But her children stand behind her.

"So I'm happy," she says in the Charles street jail here. "I know everything will come out all right. When my story is told in court, there won't be any doubt about the verdict of the jury."

What She'll Tell Jury.  
She will tell about her life with her husband, of his alleged jealousies, which she says culminated in a rage when he found her walking with a 22-year-old boy—a long friend of the family. Her two children will bear her out.

During the war Mrs. Hubbard was an active "war godmother" in the camp and at home. The Red Cross awarded her a cup for her services.

On Thanksgiving Day four years ago, she asked the Y. M. C. A. to send four boys from the Charleston Navy Yard to her home at Rosedale for dinner. One of the four was unable to come, so the secretary sent a substitute—Edmund Pitlock, then 18.

Pitlock became friendly with the Hubbards. They visited him over often. After his discharge he went to his home in Chicago.

"Both Mr. and Mrs. Hubbard," says Willard Price Lombard, the

innum binding has been used throughout.

## PROHIBITION IN AMERICA RAPPED BY FANNIE HURST

Famous Novelist Declares Dry Movement Set Back Fifty Years.

BY EDWARD M. THIERRY.  
NEW YORK, Aug. 1.—Fannie Hurst, novelist, says America has set back the world prohibition movement of 50 years.  
"We are the horrible example," she says. "Europe at first was frightened, fearing prohibition was contagious. Before the war, laugh in America, reckoning we have bungled it so much, that liquor is safe with them for a long time."

Miss Hurst, just back from a European tour, thinks prohibitionists would be converted if they took the trip.  
"We have lost our perspective here," she says. "Everybody is howling against the dry amendment. We don't see how the road to them will be placed before the meeting of union chiefs in session here."

"Prohibition is one of the greatest sociological reforms the world has known! My friends think I am crazy to talk like this, but I believe it."

More Tippling in Europe.  
The famous novelist said she found people in France, England and Germany were drinking more liquor than before the war. "The Frenchmen are still wine drinkers, but they're putting away more spirits than they ever did," she said. "In Germany the beer is back to normal. Germany is dusting herself off faster than any other country."

"The ill effects of liquor can be seen plainly in the East End of London. The place looks horrible beside our own Bowery. The Bowery looks shaved and spruced up."

Miss Hurst says American wets do more talking than actual drinking when they go abroad.

Talk Boozes, Drink Water.  
"Let them make up for lost time in a drinking way," she said. "But I noticed most American men talked about cocktails and drank water. I think a lot of our talented drinkers have lost their grip. They hate to admit it, but they have."

Actual prohibition, Miss Hurst thinks, will not come to the United States until the next generation.

"We got it by a fluke," she said. "That's why the howl continues against it. And that's one of the reasons why I think the people of European countries, horrified and amused at our dry job, will not accept prohibition for many years."

Hubby as Cheparone.  
Miss Hurst was chaperoned during the interview by her husband, J. S. Danielson, musician.

Yes, absolutely—in the same apartment.  
Miss Hurst has given up her own "bachelor" quarters in spite of the old arrangement of husband and wife only taking breakfast together.

Why, they even went abroad together!  
But she's still Miss Hurst, of course—not Mrs. Danielson.

BASIS ANNOUNCED FOR SETTLEMENT OF RAIL STRIKE

(Continued from page one)

ending of the rail strike provides with reference to the big controversy the basis of the executive's settlement as follows:  
1—Railway managers and working men are to agree to recognize the validity of all decisions of the Railroad Labor Board and to faithfully carry out such decisions as completed by the laws.

2—The carriers will withdraw all law suits growing out of the strike and Railroad Labor Board decisions which have been involved in the strike may be returned to the carriers to be recognized rights, by either party, to the Railroad Labor Board for re-hearing.

3—All employees now on strike to be returned to work and to their former positions with seniority and other rights unimpaired. The representatives of the carriers and the representatives of the organizations especially agree that there will be no discrimination by either party against the employees who did not strike.

These three points, it was em-

phasized at the White House, constituted merely the basis for a settlement and the President in transmitting them to E. M. Jewell, leader of the striking shopmen, and T. Dewitt Cuyler, chairman of the railway executives, sent a letter amplifying and explaining them. This letter was not made public at the White House.

Will Not Recede.  
CINCINNATI, Aug. 1.—Officials of the Big Four Railroad announced here today that they had received a telegram informing them that A. H. Smith, president of the New York Central Lines, announced at the meeting of the railway executives New York today that the New York Central would not recede from their position regarding seniority.

The telegram stated that Mr. Smith told the rail executives who are considering acceptance of President Harding's plan for settlement of the rail strike that the New York Central would support the old employees who remained faithful and the new employees who have made possible the continuation of transportation during the shopmen's strike.

Conference Resumed in Afternoon.  
NEW YORK, Aug. 1.—(By The Associated Press.)—The heads of 148 railroads threading all parts of the country this afternoon resumed their conference at Grand Central Station, presided over by President Harding's proposal for settlement of the nation-wide railroad strike.

Strikers Favor Plan.  
CHICAGO, Aug. 1.—A proposition that the striking shop crafts settle their strike with the roads that are willing to agree to President Harding's proposals regardless of whether the roads agree to them will be placed before the meeting of union chiefs in session here.

Side, at press-time this afternoon, making a total of 158 votes cast. Of the Central School, thirty-one Democrats and fifty Republicans had voted, making a total of eighty-one votes for the precinct at press-time.

One hundred one Republicans and sixty Democrats had voted in East Park, making a total vote of 161. This vote is light as the total registration in this precinct is 1,167.

At noon at the Miller School only 100 voters had cast ballots, 59 being Republicans and 41 Democrats. The total registration in this precinct was 705.

At the Hamilton warehouse 111 votes had been cast at noon, 88 being Republicans and 23 being Democrats, while the total registration for the precinct was \$88.

Heavy Vote at Parkersburg.  
PARKERSBURG, Aug. 1.—In the primary election here today was centered chiefly in the Republican contests for the United States senatorial nomination and the congressional nomination. After a bitter campaign, the offices marshaled their forces at the polls this morning and an unusually heavy vote is expected.

Small Vote in Kanawha.  
CHARLESTON, Aug. 1.—Voting during the morning was light in virtually all the precincts in Kanawha County and reports indicated the total would be small. A few complaints were received from suburban precincts that late opening of polls had deprived the people living in the outside towns and working in this city of a chance to vote.

SKYSCRAPERS SHOULD HELP  
Mayor of Town: Our climate's bad. If we could get rid of these clouds our city would go ahead.

Visitor: Those skyscrapers ought to keep them clean at any rate.

Without Fear.  
The Nelson today, shows very conclusively, that, in part at least, this statement is true, and that there are those, who, no matter what their true worth in character or in dollars, earned through their own efforts, may be will never find entrance into certain "sets."

The young woman in the story, entertained no such ideas as to social distinction however, and, at great risks, broke down the barriers between the aristocratic family and the young millionaire who had worked his way up from obscurity, but had no family tree or crest of which to boast.

Pearl White is at her best in the leading role, and has a strong supporting cast.

The feature attractions at each of the local theaters today present three distinct social problems, one of which offers its own solution, but the other two leave us to our own conclusions.
